

兔抗 SHB 多克隆抗体

中文名称：兔抗 SHB 多克隆抗体

英文名称： Anti-SHB rabbit polyclonal antibody

别名： bA3J10.2

相关类别： 一抗

储存： 冷冻（-20℃） 避光

宿主： Rabbit

抗原： SHB

反应种属： Human

标记物： Unconjugate

克隆类型： Unconjugate

技术规格

Background:	Adapter protein which regulates several signal transduction cascades by linking activated receptors to downstream signaling components. May play a role in angiogenesis by regulating FGFR1, VEGFR2 and PDGFR signaling. May also play a role in T-cell antigen receptor/TCR signaling, interleukin-2 signaling, apoptosis and neuronal cells differentiation by mediating basic-FGF and NGF-induced signaling cascades. May also regulate IRS1 and IRS2 signaling in insulin-producing cells.
Applications:	WB
Name of antibody:	SHB
Immunogen:	Synthesized peptide derived from C-terminal of human SHB.
Full name:	Src homology 2 domain containing adaptor protein B

Synonyms :	bA3J10.2
SwissProt:	Q15464
WB Predicted band size:	55 kDa
WB Positive control:	Huvec cells lysate
WB Recommended dilution:	500-3000
