

兔抗 SKP1 多克隆抗体

中文名称：兔抗 SKP1 多克隆抗体

英文名称： Anti-SKP1 rabbit polyclonal antibody

别名： OCP2, p19A, EMC19, SKP1A, OCP-II, TCEB1L

抗原： SKP1

储存： 冷冻（-20℃）

宿主： Rabbit

相关类别： 一抗

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes a component of SCF complexes, which are composed of this protein, cullin 1, a ring-box protein, and one member of the F-box family of proteins. This protein binds directly to the F-box motif found in F-box proteins. SCF complexes are involved in the regulated ubiquitination of specific protein substrates, which targets them for degradation by the proteasome. Specific F-box proteins recognize different target protein(s), and many specific SCF substrates have been identified including regulators of cell cycle progression and development. Studies have also characterized the protein as an RNA polymerase II elongation factor. Alternative splicing of this gene results in two transcript variants. A related p

	seudogene has been identified on chromosome 7.
Applications:	ELISA, WB, IHC
Name of antibody:	SKP1
Immunogen:	Fusion protein of human SKP1
Full name:	S-phase kinase-associated protein 1
Synonyms :	OCP2, p19A, EMC19, SKP1A, OCP-II, TCEB1L
SwissProt:	P63208
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human breast cancer and Human ovarian cancer
IHC Recommend dilution:	25-100
WB Predicted band size:	19 kDa
WB Positive control:	Mouse brain tissue and NIH/3T3 cells
WB Recommended dilution:	500-2000
